

MAXAIR Li-Ion BATTERIES

Long lasting - no memory effect
Small size and light weight
8 hour shift / 12 hour shift options

1 SECURE LOCK / PUSHBUTTON

Above Power Cord Connector.
Locks Automatically on insertion of Power Cord.
Simple Push-Down to unlock/release.

2 STANDARD LI-ION BATTERY

REF: 2500-36TSC

Compact size
Light weight
Typically 4-10 Hrs/Charge¹

3 EXTENDED LI-ION BATTERY

REF: 2500-37TSC

Same compact size
Same light weight
Typicaly 6-15 Hrs/Charge²

4 QUICK-CLIP BELT ATTACHMENT

Sturdy and secure clip on back of battery.
Slide belt up under clip to attach.
Slide belt out from under clip to detach.

NOTES

Battery choices allow optimizing size and weight for individual comfort.

Battery typical run time per full charge allows optimizing charging frequency to duration of use per day.

¹Not for use with 2166-10 N-OV Filter Cartridge

²Typically 6-7 Hours with 2166-10 N-OV Filter Cartridge

BATTERY BELT OPTIONS

Nylon

69" length

REF: 2000-76

Polyurethane

Cleanable

50" length

REF: 2000-77

Polyurethane

70" length

REF: 2000-78

BATTERY BELTS

EasyClick Buckle for fast Don/Doff.

Choice of Wearing/Cleaning:

- 2000-76 is Nylon and may be worn under outer gown
 - Protected by outer body covering
 - No cleaning required
 - 2000-77, 2000-78 may be worn under or on top of outer gown
 - On top of outer gown requires cleaning
-

SINGLE CHARGER

REF: 2600-02

SINGLE CHARGER

Integrated Combination:

- Universal voltage Power Supply (100v-240v)
- Charger for All MAXAIR Li-Ion Batteries

Compact size to optimize charging space in highly confined areas.

Charger includes automatic timer to cease charging when battery is fully charged (refer to 2600-02 Charger Instructions For Use, REF 01423205 for charging detail)

6-GANG CHARGER

REF: 2602-06

6-GANG CHARGER

Compact size to optimize charging space:

- 6 Batteries charged from a single power plug
- 12 Batteries charged from a single power outlet (two, 6-gang chargers)

Charger includes automatic timer to cease charging when battery is fully charged (refer to 2600-02 Charger Instructions For Use, REF 01423205 for charging detail)

6-GANG CHARGER BRACKET

REF: 2602-06B

6-GANG CHARGER BRACKET

REF: 2602-06B

6-Gang Bracket easily converts up to six existing 2600-02 Chargers to a 6-Gang Charger to conserve power outlet connector usage.
